## Financial Aid

Financial aid is available for K through 12th-grade students. These awards are need-based and merit based, available through Student Scholarship Organizations (SSO) partners and are intended to provide supplemental assistance.

PCA-Newnan need based financial assistance is based on the need of the family and has no bearing on our admission decisions. To be considered for tuition assistance, please contact the office for assistance. **There may be a fee for each family that applies for financial aid.**

In addition to completing the application, PCA-Newnan requires that families also submit copies of tax forms directly to one of our SSO Partner Organizations. In those cases where parents are not living together, the resources of both parents will be considered in establishing the family's level of need. The School Administration in coordination makes award decisions with our SSO Partners and other alternative school funding sources.

PCG Grants are available to certain students to assist with tuition cost. The PCG Grant is needs based and is used in combination with other funding sources. The PCG is applied after SSO Grants and Expected Family Contributions (EFC) are met. The PCG Grant is not indented to be the first source of funds for education, rather, it serves as a final options once all other sources have been expended.

## **Qualifications**

There is no specific income level that qualifies a family for need-based aid; every case is individual. The evaluation process considers income, amount of debt, number of people in the family, and assets. The entire process is strictly confidential.

## **Eligibility**
